Case-based reasoning - Wikipedia Case-based reasoning (CBR), broadly construed, is the process of solving new problems based on the solutions of similar past problems. An auto mechanic who fixes an engine by recalling another car that exhibited similar symptoms is using case-based reasoning. A Case-Based Guide to Clinical Endocrinology ... To reinforce learning and retention of knowledge, a question-based approach is used in many of the case studies. Students, residents, fellows, and practitioners will find this reference to be an efficient way to review their understanding and increase their skills and abilities in patient investigation and management. Case-based Teaching and Problem-based Learning | CRLT With case-based teaching, students develop skills in analytical thinking and reflective judgment by reading and discussing complex, real-life scenarios. The articles in this section explain how to use cases in teaching and provide case studies for the natural sciences, social sciences, and other disciplines.

Surgery: A Case Based Clinical Review: 9781493917259 ... Surgery: A Case Based Clinical Review provides the reader with a comprehensive understanding of surgical diseases in one easy to use reference that combines multiple teaching formats. The book begins using a case based approach. The cases presented cover the diseases most commonly encountered on a surgical rotation. Medication Errors: A Case-Based Review - AACN Every day, nurses are inundated with alerts warning of potential medication errors via system safeguards. Even though error-reduction systems are in place, human errors still occur. Clinicians learn of medication errors and attempt to identify gaps in the medication administration system, but they. The Case Study as a Research Method - Upcoming Events For example, case study research could examine how information-seeking behavior in public libraries compares with information-seeking behavior in places other than libraries, to conduct in-depth studies of non-library community based information services to compare with library based community information services, and to study community.

Case study - Wikipedia In doing case study research, the "case" being studied may be an individual, organization, event, or action, existing in a specific time and place. For instance, clinical science has produced both well-known case studies of individuals and also case studies of clinical practices. Business intelligence for performance measurement: A case ... The case can be used as a reference for comparison with other academic case based research in future. It details the successful implementation of a PMS and can act as a useful reference for firms planning to implement a BI-based PMS. Case-based and Behavioral Interviews | Saint Michael's College Case-Based Interviewing In the world of business, you will be asked to solve complex, multifaceted problems and propose solutions that are tailor-made to a particular client. Case-based interviewing is designed to predict your ability to be successful in this realm of providing business solutions.

Case Study Research Design - How to conduct a Case Study The case study research design is also useful for testing whether scientific theories and models actually work in the real world. You may come out with a great computer model for describing how the ecosystem of a rock pool works but it is only by trying it out on a real life pool that you can see if it is a realistic simulation.
