Circle of Atonement Click here to log in to your Circle Programs. Prayer Ministry Click here to receive healing and blessing prayers for all of the significant events and situations of your life. Circle - Wikipedia The circle is the shape with the largest area for a given length of perimeter. (See Isoperimetric inequality.) The circle is a highly symmetric shape: every line through the centre forms a line of reflection symmetry and it has rotational symmetry around the centre for every angle. Area of a circle (video) | Khan Academy The area of a circle is pi times the radius squared ($A = \pi r^2$). Learn how to use this formula to find the area of a circle when given the diameter. Created by Sal Khan and Monterey Institute for Technology and Education.

Circle | Definition of Circle by Merriam-Webster d: a circle formed on the surface of a sphere by the intersection of a plane that passes through it circle of latitude e : rotary sense 2 Traffic slowed down around the circle . 4 : an area of action or influence : realm within the circle of probability. Circle - Math Is Fun A circle has an inside and an outside (of course!). But it also has an "on", because we could be right on the circle. Example: "A" is outside the circle, "B" is inside the circle and "C" is on the circle. Circle | Define Circle at Dictionary.com Circle, club, coterie, set, society are terms applied to restricted social groups. A circle may be a little group; in the plural it often suggests a whole section of society interested in one mode of life, occupation, etc.: a sewing circle; a language circle; in theatrical circles.
